Sir:

Pursuant to 37 C.F.R. §1.323, Patentee requests correction of the above-noted patent due to applicant's mistakes. The errors noted are typographical errors that do not change the scope of the patent. Correction of the following errors is requested:

1. Claim 1, line 17, "gating mechanisms" should be --gating elements--.
Claim 1 refers to a first valve gating element in line 5 and a second valve gating element in line 7. When referring back to the first and second valve gating "elements" in lines 16-17, an error was made by referring to them as the first and second valve gating "mechanisms". The claim is clearly referring back to the first and second valve gating elements.
2. Claim 5, line 7, the second "a" should be --the--. This portion of the claim refers to "a second melt stream". However, the second melt stream was already recited in line 4-5 of the claim. Accordingly, --the-- should be used to properly refer back to the already recited second melt stream.
